Fortenberry
**Healthmark
Industries**

Patricia Simon
**Olympus
America, Inc**

Details:

The connection between central sterile processes and patient outcomes continues to be of increasing importance in safe patient care. It is imperative that all Central Service professionals understand and use best practices as related to cleaning, sterilization and disinfection of reusable patient care equipment. This annual seminar provides these professionals with the information needed to enhance their role in playing an integral part in safe patient care through best practice sterile processing.

Target Audience:

Healthcare professionals including nurses, technicians, and infection preventionists who work in Central Service, Operating Rooms, Surgery Centers, Medical/Dental Offices, Risk Management, and similar facilities.

Accommodations:

Radisson Hotel & Conference Center

Should you require accommodations, please contact the Radisson Hotel and Conference Center. Be sure to mention you are there for the CSAI conference.

Continuing Education Credit:

Continuing education credits will be provided for nurses, CBSPD & IAHCMM technicians. Amount of CE's is currently pending.

You must be present for the entire day's program to be awarded CE's. No partial credit will be awarded
